COMMISSION

## Monitoring and Control System (M&C)

Le Monitoring & Control System (M&C) est mis en place .

Cet outils nous permet :

- De suivre l'état d'avancement des activités du projet
- Evaluer l'impact du projet .
- Collecter et sauvegarder les données du projet

L'ancodage est basé sur les LogFrameCode du DP

Activity Result 1 : ACT 1.2.1.4 - To support the formulation & operationalization of a regional Sport and Recreational. Fishery Management Guidelines/Framework for the SWIO States.

Strategy Action (SA)\*

SA 1.2 - Evaluate and review existing management plans and/or develop and support the implementation of new management plans for species and/or fish

Work Plan (WP)\*

WP 1.2.1 - Review / establish fishery management plans for small-scale and semi-industrial fisheries

Activity Task (ACT)\*

ACT 1.2.1.4 - To support the formulation & operationalization of a regional Sport and Recreational. Fishery Management Guidelines/Framework for the

Description\*

Generally, recreational fisheries are associated with the coastal and eco-tourism industry. While this systematic sector is quite advanced in some countries of the region, it is still nascent or inexistent in the others. This study therefore aims to perform a comprehensive situational analysis of the recreational fishery in the coastal ACP countries of the EA-SA-IO region, to review the existing fisheries and socio-economic data of these type of
