

Background document:

- a) ECOFISH Concept Note on the Initiative
- b) Consultant Draft Final Report
- c) Country's Presentations

1. Introduction

a) breakout session on Capacity Building and Training Initiatives on the Registration System in small-scale fisheries. The session aims to identify capacity-building needs and develop strategies for training stakeholders involved in registration and licensing processes.

2. Needs Assessment

- a) Presentation of the Consultant's report on the needs assessment conducted to identify capacity building gaps and priorities.
- b) Discussion on key findings and areas for improvement.

3. Capacity-Building & Training Plan Development

Gaps and challenges in current capacity-building efforts related to registration (and licensing) in small-scale fisheries.

- **Legal frame work**
- **Financial capacity**
- **Access to fishers in remote place**
- **Internet coverage leading to partly manual data collection for processing in electronic system.**
- **Institutional and human capacity**
Different institutions dealing with registration, need harmonisation at national level

Training plan outlining objectives, target audiences, content, delivery methods, and evaluation criteria.

- **Senior fisheries officers / MCS personnel and data collection officer/ administrative level**
- **Fishers through grouping such as association/ cooperatives**
- **Understanding the needs of registration as a fisheries management measure**
- **Regulatory framework in regards to registration**

GROUP 1 - CAPACITY BUILDING AND TRAINING INITIATIVES

Identify potential training partners and resources to support the implementation of training programmes.

- **Existing national institution, fisher association/cooperatives / local authorities / NGOs.**

Outline communication materials and outreach strategies to raise awareness and promote participation in training initiatives.

- **Make use of existing platform such as the media**
- **Brochure to disseminate**
- **Community leasers**
- **BMUs**
- **SMS messages**
- **Fisheries post services**
- **Enforcement officers and data collection officers**
- **Posters**
- **meeting with the local authorities**
-

Provide actionable recommendations for monitoring and evaluating the effectiveness of capacity-building and training programmes and adjust strategies as needed.

Impact

- **Number of boat and fishers registered**
- **Number of deregistered boats or fishers**

Out put

- **Types and number of capacity building undertaken**
- **Number of people trained**

To adjust strategy set targets per area/ district / province, to identify progress and provide addition support to areas with drawbacks.

4. Collaboration Opportunities

- a) Presentation on potential collaboration opportunities with educational institutions, NGOs, and government agencies.

Make use of existing national framework and institution for the training where applicable make use of NGO

- b) Open discussion on strategies for building partnerships to support capacity-building initiatives.

GROUP 1 - CAPACITY BUILDING AND TRAINING INITIATIVES

Sensitise partners through existing interagency collaboration and co-management approach with existing grouping and community leaderships.

5. Action Planning (20 minutes)

a) Identifying actionable steps and timelines for implementing the training plan.

Develop action plan for the different training programmes and modules.

b) Discussion on resource mobilisation, monitoring, and evaluation mechanisms.

As per above actionable recommendation develop objective variable indicators to monitor implementation and evaluate progress.

6. Summary and Next Steps (10 minutes)

- **In some countries the system is very complex, though there are similarities there are different gaps. Training should be country specific.**
- **There regional frame work should be in a guideline format to guide countries with implementation/or improve of their national registration system.**
- **The electronic registration system should be developed alongside with the licensing system.**
